ple of the town in a plan to improve home surroundings, produce more vegetables in the home gardens, and secure better results in the performance of home duties. The primary object was, of course, to beautify the town.

The movement was engineered by a committee headed by Mrs. M. E. Marsh representing the Women's Clubs. On this committee were H. E. Taylor, Dr. Cornelius, Prof. J. F. Smith, who was Secretary-Treasurer of the movement.

Through the cooperation of a number of club women \$42.50 was collected for prizes to the winners in various contests. This money was collected from 38 business and professional

Of the one hundred twelve entries, twenty-four people won twenty-five money prizes. Three other prizes including a lawn swing, a canning outfit, a supply of fruit trees were given.

On November 30 at the Berea Corn Show the prizes were awarded by Mrs. M. E. Marsh and Prof. J. F. Smith.

Following the awarding of the prizes the boys and girls who were contestants gathered in front of Lincoln Hall where nine automobiles were waiting. With banners displaying various slogans of the Berea Beautiful movement, the young people were taken on a long auto ride.

The results of the summer's efforts were much beyond the expectation of those who had the work in

"I BOUGHT A BUNCH OF PIGS"

"Got the biggest piece of news yet," yelled Dave Thurman as he rode up to the old blacksmith shop at Ashbottom.

"Well give it to us, Dave."

"John Hughes's goin' to run for school trustee."

"No, you're jokin', Dave. John, he's too busy a farmer to bother with bein' school trustee, besides he hasn't got any kin folks teachin' school that I ever heard of."

"That may be so, but I got word about it mighty straight. His wife tol' mine he was goin' to run an' I reckon that's just about as straight as anybody could get anything. Here he comes now on his 'bay mare, an' you can ask him for yourselves."

When the tall, fine-looking man had given the blacksmith some instructions concerning the mending of a doubletree, he turned to the men and said:

"I'll bet anything Dave has told you I'm out for the office of school trustee for Ashbottom Sub-district."

"Yes, he said you were goin' to run, but we couldn't hardly believe it," answered one of the neighbors.

"Why not?"

"Well, because mighty few men ever wanted the trouble and bother of worryin' with a young teacher an' a lot of children. Besides there ain't a penny in it an' plenty of hard work if the man does his duty."

The candidate sat down on the frame of the grindstone under the big elm and quietly crossed his legs. For a time he was silent with an odd, bitter smile on his face. At length he arose and said:

"Any one of you men would fight if anybody told you that you really didn't love your children, wouldn't you?"

The men about him nodded their assent and he hurried on.

"You do love 'em; I know you do because I love mine, too. But boys, there's ever so many ways of lovin' children an' it's only lately that I've seen a new way to love 'em. My children have been goin' to school out at the little school house for five years an' I hardly ever gave 'em a thought. I voted for any ol' galoot that wanted to be trustee just like you have."

"What made you swap around in your ideas?" asked one of the men.

"Feedin' hogs an' keepin' my eyes open."

"Don't you joke with us, John, we want to know."

"I have already told you, but I haven't told you the whole story just as it happened to me. You fellows recollect I bought a big bunch of pigs just about the time school opened. Well they were as nice a bunch as I ever saw, so I wanted 'em to be fed right. My regular hand, ol' St, was sick, so I had to hire a new man to do the feedin'. While I was lookin' around I put the hogs in that clover field down next the school house so they'd have grazin' enough an' plenty of water."

"I reckon you boys think I'm takin' a long time to tell you the story, but I believe I'll change your ideas about the school like it did mine. Well, the day I put the hogs in on the clover a nice lookin' youngster about 18 years old come over to hire to me an' feed the hogs. I talked with him an' he was bright all right, but he never had fed hogs. He had worked on a farm an' he had a pretty good education, an' I wanted to hire him, but you see I was afraid to risk feedin' a lot of corn to pigs that stood me five hundred dollars in hard money."

"I don't blame you," remarked one of the men, "but how did that make you decide you wanted to be trustee?"

"I'm comin' to that now. After the young man had left an' I'd finished feedin' the pigs, I went over to the school house as I was so close by. When I went in the door I reckon I was still thinkin' about the pigs an' the young man I was afraid to hire. At any rate I looked over the room. My children and your children goin' to school to a mite of a sweet little girl of 18. I'd known her nearly all her life an' I was certain this was the first school she'd ever taught. I knew she's only finished goin' to school herself last year."

"For a minute I felt like a fool because I knew I'd been afraid to trust the feedin' of my hogs to a youngster without experience an' yet here were four of my own children goin' to school to an 18-year-old little girl without any experience."

"That's the reason I told you I was learnin' to love my children a new way, an' that's the reason I'm goin' to take time to be trustee so I can see that my children an' your children get a fair square deal from now on."

Rome.—Three Austrian aeroplanes dropped 50 bombs on Verona, killing 30 persons and seriously injuring 35. At the Piazza Della Erbe one bomb killed eight men. The bombs of the aircraft found many victims in the public square of the city, where citizens and peasants from the outlying districts were attending market. This is the second time Austro-Hungarian aeroplanes have made a raid on the city of Verona.

Chicago.—After an exchange of 50 shots the police invaded and captured Captain George Wellington Streeter's "District of Lake Michigan," a plot of filled-in land on the shore of Lake Michigan where Streeter had successfully defied the officers who sought to arrest him on a charge that he violated the Sunday closing order. Mrs. John Holst, wife of one of Streeter's tenants, was slightly wounded; Streeter, his wife and 15 others were placed under arrest.

Hitherto, although Berea has sent its invitation to the mountains only, students from other parts of the country have been received. Those now here will be most cordially retained and taken care of; but no more can be received until our buildings are greatly increased.

Students outside the mountains have other schools.

The mountain region of Kentucky is defined as including the following counties:

Lewis, Rowan, Menifee, Powell, Estill, Madison, Garrard, Lincoln, Casey, Adair, Cumberland and the counties east of them.

The remainder of the mountain region may be thus defined:

West Virginia, the entire state.

Old Virginia, the counties of Fauquier, Rappahannock, Madison, Greene, Albemarle, Nelson, Amherst, Bedford, Franklin and Patrick, and all west of them.

North Carolina, the counties of Surry, Wilkes, Caldwell, Burke, Rutherford, and all west of them.

Tennessee, the counties of Pickett, Overton, Putnam, White, Warren, Coffee, Franklin, and all east of them.

Alabama, the northeastern counties.

vessel was shelled and that the killing and wounding of passengers continued after the ship had stopped. No reference is made to the nationality of the submarine.

As yet Ambassador Penfield has not been instructed to call at the Vienna foreign office for information, but he probably will be shortly in view of the issuance of a statement by the Austro-Hungarian admiralty describing the attack.

Upon receipt of the facts as stated in Vienna, the Washington government will consider whether any rights of American citizens have been violated. The admiralty statement, which has been seen by officials here in the press, is at variance with that of Italy. It declares that the Ancona attempted to escape and only after repeated shelling was brought to a stop.

Incidentally Mr. Churchill sounded an optimistic note as to the eventual outcome of the war.

"We are passing through a bad time, which probably will be worse before it will be better," said he, "but it will be better. I am endure the campaign of 1916 should be decided against Germany by her shortage of men."

France, the Germans, by a sudden attack, gained a foothold in one of the French first-line trenches, but were driven out, leaving their wounded behind. Otherwise there has been only artillery action on the western line.
